CERTIFIED EXPERTS

Attendant Care's team of clinicians stands ready to help. Our CMS Certified skilled care team offers a diverse range of specializations. We can help patients quickly recover following a surgery or lessen the burden of a debilitating illness. From joint replacement recovery, to monitoring vitals to performing daily living activities; we believe in an individualized level of care.

PERSONAL TOUCH

Our dedication to loving care isn't just a motto. It comes from experience. Because we've been there. Founder and President Paul Semian created the company because he has a strong desire to help people in need. When his beloved mother, Rose, was diagnosed with cancer, he became her primary caregiver because he was shocked at the unacceptable and unreliable home health care she received. From there, Attendant Care was born and Paul surrounded himself with medical experts who not only are the best in their field but have the sensitivity required to provide deep, compassionate care.

QUALITY OF LIFE

At Attendant Care, we know recovery can be difficult. So we make it easy. Our goal goes beyond mere healing. We work diligently to provide expert medical care and improved quality of life. Our team of home caregivers goes above and beyond providing invaluable companionship and guidance. Because recovery isn't merely medical. It's emotional and mental too.

FLEXIBILITY AND AFFORDABILITY - *Never a Co-Pay*

Attendant Care's home health care services are convenient, affordable and often fully covered by your insurance. We accept Medicare, Blue Cross Blue Shield, HAP and most all insurance providers including workers compensation, as well as automobile insurance plans. Best of all, our insurance specialists will help you navigate the confusing world of coverage options and help receive your insurance benefits.

Getting better at home starts with a call to 586-228-9991. Let's talk about the best way to care for your loved one.
