

RESPECT WITHIN REACH

Progressions is the only company of its kind to offer homes throughout southeast Michigan - with homes in Rochester Hills, Macomb Township and Oakland Township, plus transitional living apartment programs in St. Clair Shores and Sterling Heights. As residents recover, they move into increasingly independent homes, all with the comfort and safety of home.

EXPERT CARE THE COMFORTS OF HOME

Recovery begins today. Combining the very best medical care with the comforts of home, Progressions reinvents the very concept of long-term care for those with traumatic brain injury or spinal cord injury. A world removed from traditional, clinical facilities, we're a community of healers with one goal: Moving forward from catastrophic injury with dignity everyone deserves. Progressions pays attention to every detail so you and your family can pay attention to what's most important. Health.

EXHAUSTIVE SERVICES PERSONAL TOUCH

Life enrichment is a core value at Progressions. Everything we do works toward the common goal of improving residents' lives. Not just physically. But mentally, socially and spiritually. That's because every service begins with a question: "How will this better the client's life?" We get better outcomes by working toward common goals, which start with a mutual agreement between the treatment team and client. Everything is done together. If something doesn't work, we'll try something different until it does. At Progressions, we never give up.

BEAUTY AND PRIVACY

No one wants to live in a "group home", and Progressions doesn't look like one, even though it is a treatment facility. Designed with the same amenities you would find in luxury homes, each location is built to accommodate barrier-free lifestyles. But you'd hardly notice. No one shares a bedroom. There are plenty of places and spaces to get away and decompress when stressors are at their peak.

COMPASSIONATE AND THERAPEUTIC

At Progressions, it's about living life. Not living out life. With therapy, we hope for recovery. With hope and encouragement, we challenge clients with more therapy. With support, we stand with clients throughout the recovery process. Together. Progressions focuses on each client's strengths and moves forward. What sets it apart is the dynamic Life Enrichment Program that focuses on each resident's growth and mental well-being. We inspire higher levels of functioning that increase quality of life and self-worth.

PROGRESSION AT PROGRESSIONS

One of the first questions at Progressions is "What is the ultimate goal?" In many cases, it's a comprehensive discharge plan to the next level of recovery. We offer all levels of residential programming that provides the right amount of support each client needs and deserves. If it is residential group living, transitional living or supportive living, our clients have access to the highest standard of care to support them along the path of recovery.
